

MBBS

Career in MBBS

MBBS or Bachelor of Medicine, Bachelor of Surgery is a professional degree conferred by the medical schools and colleges in India. Though the name of the degree indicates that these are two different degrees, they are considered as one degree and conferred jointly.

The duration of the MBBS course is 4.5 years. After completing this, the students need to undergo a Mandatory Rotating Residential Internship which takes 12 months.

Current Scenario of MBBS in India

In order to become eligible to study MBBS in India, the students should score at least 50% in Chemistry, Physics, Biology and English in their Higher Secondary or 10+2 exams. In India, in case of reserved category students (Scheduled Caste/Scheduled Tribe/Other Backward Classes), the prerequisite is 40%. At the time of getting admission, the age of the student should be between 17 years to 25 years. Approximately 5 Lakh students vie for 32000 MBBS seats.
